Explanation

The fuel clause electricity is higher in November than in October 2013, due to the use of expensive light fuel oil instead of cheaper heavy fuel oil in the Aggreko generators to prevent malfunctions. The heavy fuel oil has led to malfunctions in the Aggreko generators. Less supply by the BOO generator and slightly higher oil prices also contributed to the increase in the fuel clause for electricity.

The fuel clause water is higher mainly due to the higher fuel clause electricity.
