

## TARIFFS RENEWABLE ELECTRICITY GENERATION 2017

Since November 16, 2011 it is possible for households and businesses on Curaçao to generate renewable electricity for own use purposes in combination with a connection to the electricity network. As from January 1, 2016, the tariffs which are applicable with regard to feeding in renewable electricity in the electricity network, consist of a feed-in tariff of NAF. 0,25 per kWh in combination with a fixed monthly fee of NAF. 16,00 or NAF. 32,00 per installed kWp, to be paid to the electricity company.

During 2016 the costs of electricity production based on fossil fuels further decreased as a result of a further decrease of the international market prices for oil products. This resulted in a lower fuel clause as part of the regular electricity tariffs, but it is also to be noted that the international market prices are currently climbing up again. Based on the yearly evaluation according to the 'Tariff guidelines for small scale renewable electricity generation', the Government of Curaçao decided to maintain the abovementioned tariffs in 2017.

The feed-in tariff will be maintained at NAF. 0,25 per kWh, also taking into account the aforementioned developments. Furthermore, the fixed monthly fee which is charged to cover the costs for the use and availability of the network, the network connection and generation capacity, will remain unchanged.

By maintaining the feed-in tariff and the current fixed monthly fee per January 1, 2017, households and businesses will still be able to realize a reasonable and stable pay-back period and the purchase costs of solar energy will reasonably be in line with the fuel clause as part of the regular electricity tariffs.

Tariffs Group	Feed-in tariff in NAF. Current	Fixed monthly fee in NAF. Current	Feed-in tariff in NAF. per January 1 <sup>st</sup> 2017	Fixed monthly fee in NAF. per January 1 <sup>st</sup> 2017
01 Domestic	0,25	16,00 per kW(p)	0,25	16,00 per kW(p)
02 Corporate	0,25	32,00 per kW(p)	0,25	32,00 per kW(p)
22 Industry standard	0,25	32,00 per kW(p)	0,25	32,00 per kW(p)
23 Industry export-oriented	0,25	16,00 per kW(p)	0,25	16,00 per kW(p)
24 Industry import-replacing	0,25	32,00 per kW(p)	0,25	32,00 per kW(p)
33 Hospital	0,25	16,00 per kW(p)	0,25	16,00 per kW(p)
