#### Explanation

In October 2020 the purchase price of LSD shall increase substantially, which is in line with the international price ratings. In order to mitigate the tariff increase for LSD for the month of October 2020, the allocation of costs for the use of the infrastructure of the refinery to the various regulated fuel products has been adapted. This results in a change of the component 'guarantee fuel supply (1b)' for the various fuel products. Due to these adaptations the end user tariff for Mogas will approximately remain the same and the end user tariff for LSD will decrease slightly.
