#### Explanation

In line with the international developments, the purchase prices for both Mogas 95 and Gasoil LSD are increasing. Due to the gradual reintroduction of the tariff component Fuel Supply Guarantee 1b, this component will also be increased this month. The increase of the end user price for Mogas 95 is the result of an increase in the purchase price as well as the tariff component Fuel Supply Guarantee 1b. Despite the increase of the purchase price and the tariff component Fuel Supply Guarantee 1b, the end-user price for Gasoil LSD practically remains the same due to a decrease in the correction of the Surplus/Deficit component.
