D Irrigation water	≥ 0	3.5000	4.2262	7.7262	3.5000	4.3419	7.8419

Explanation

The increase of the electricity tariffs is mainly the result of an increase in the average fuel expenses for the production of electricity due to an increase in the fuel prices of Marine Gasoil (MGO) in combination with the expected production-mix and a higher correction factor for the month of September 2023. The increase of the water tariffs is the result of an increase in the electricity expenses for the production of water in combination with a higher correction factor for the month of September 2023.
